LOUISVILLE
BOOSTERS

We Welcome You
To the Home of

Boone Way

CUMBERLAND'S NORTH GATE.

Rah' for Louisville.

Howdy,

Bob Brown.

Hello There.

Where's Dave Jackson?

Louisville and Boone Way.

We want you to come again.

"Heads of houses" sounds O.K.

Boosters added, counts some,

also.

The Cumberlands and Louis-

ville.

Get acquainted with your neighbors, you may like them,

Col. B. H. Young contributed the first dollar, from his city, to postage and printing fund of Boone Way Boosters. (1913).

Daniel Boone past this way in 1799 enroute to Harrodsburg (to be).

Three cheers for the Louisville Boosters and as many for Boone Way which they aided in putting on the map.

It was thru the legislative members of Jefferson county, and Louisville's activity in support of the Kentucky Good Roads Association that gave the mountains of Southeastern Kentucky an opportunity to make it possible for the construction of Boone Way. If there had been no Boone Way there would have been no chance for an East Dixie Highway.

On May 24th, four years ago the Louisville Boosters paid our town a flying visit, arriving here at 10:30 a.m. On the speakers committee was found this talent:

C. W. Milliken, Dr. Ben L. Bruner, Sam P. Jones, Thos C. Timberlake, John J. Davis, W. W. Davies, Wallace McKay, Smith T. Bailey, A. B. Lipscomb, Frank Cassell, Frank F. Laib, and Robert F. Vaughn. There were other men along who could also handle English "as she is spoke."

The people of the mountains cannot and will not forget the part Louisville and her business men have taken in the promotion of Boone Way and good roads in Southeastern Kentucky.

The Louisville newspapers have the hearty thanks and appreciation of the mountains for the great assistance in Boone Way work. The Courier Journal, The Times, The Evening Post and

Herald, all boosted, especially did the two just mentioned.

Any map without Mt. Vernon showing thereon would be thrown out of any court on demurrer.

The "Heads of Houses" train of live pullman coaches, with 100 Boosters left Louisville at 11 p.m. on June 7th, for a four days' run of 1000 miles, visiting 22 cities.

Stopping over one night at Bristol, Va.-Tenn., and one night at Knoxville, arriving Mt. Vernon Friday afternoon at 5 p.m. stopping for one hour and thirty minutes, being received with a welcome address by a local speaker representing the Commercial Club, response by one of the boosters.

There will be music by the band which accompanies the boosters train. The "heads of houses" and boosters will visit the various business houses shake hands and get acquainted with the proprietors.

To our people of the mountains who have not studied closely the cause of its being made possible for us to get good roads, we would say look back into the matter and it will be found, that after Bosworth, comes Louisville, showing work done and results accomplished in this great work of salvation of the state, more especially southeastern Kentucky.

The purpose of the trip of "Heads of Houses" of Louisville (and boosters): "Is to renew old acquaintances, make new friends stimulate a better trade relationship between the cities and towns in Eastern Kentucky and Louisville."

"If I knew you and you knew me, If both of us could clearly see, And with an inner sight divine The meaning of your heart and mine,

I'm sure we would differ less And clasp our hands in friendliness Our thot's would pleasantly agree If I knew you and you knew me."

--NIXON WATERMAN.

Boone Way is proving quite a popular name for other things besides the highway. Mt. Vernon has an opera house and a baseball team so named. The latter claims to have never lost a game since it was so christened.

L. & N. watch Inspector, S. C. Franklin, of Mt. Vernon, on visit to Louisville last week, was told by train dispatcher R. J. Lemonds that Maret, in his opinion, was the most progressive man in eastern Kentucky and had done more than any ten thousand men in arousing interest in pushing roads thru the Cumberlands.

Mr. Robert E. Woods, director of Kentucky Good Roads Association is due a portion of credit for the creation and maintenance of good roads sentiment throughout the state.

To James Maret, of Mt. Vernon is due the big credit for three years of work in creating a good highway over Boones Trail, Cum-

berland Gap, via Mt. Vernon and Crab Orchard to Louisville; distance 250 miles; the first officially routed highway across the state, which was acted upon at Crab Orchard Springs meeting on May 14, 1915, the largest good roads meeting that has ever occurred in Kentucky.

Mt. Vernon does make a whole lot of noise. Some think too much is made, but look at the results.

How in the world did the little old town of Mt. Vernon create such a stir? Really we can't tell but just keep reading and acting upon the writings of Mt. Vernon's chief booster, whose lines have appeared in these columns weekly for past three years as well as in most of the newspapers from Cumberland Gap to Louisville including the city papers, all alive to the vast interests involved.

Don't forget Mt. Vernon has a county fair on August 4, 5 and 6, and that Brobhead, John Robins, Secretary, only six miles away, in the same old Rockcastle county, has a fair during the following week, August 11, 12 and 13th, and both are fairs with some life and get-up, not "lame dogs." The only county, we know of, in our state that puts on two successful fairs each year. All this is being done without good roads. Just use your imagination as to what will be done when Boone Way and Dixie are put thru.

Some of the visitors may, after observation, think that our streets doesn't show up in accordance to the great amount of noise that has been made by Mt. Vernon boosters, but let them take into consideration we are a mighty small town less than 1500 (but growing fast) and has been only a few (mighty few) years since we had no paved or other sidewalks, except a few planked and mud ones; one church building; no graded or high school nor a local clergyman in charge of a town church. Today we have three miles concrete sidewalks, three church buildings, three local pastors, graded and high school girls industrial and high schools, under charge of the Presbyterians.

Our town has a first class electric light plant, owned by members of the Commercial Club. No stock owned outside of town limits. Waterworks and ice plant will soon follow and will all be home owned.

Not necessary to say we have railroad, express, telegraph and telephone facilities; they are here.

Mt. Vernon has a number of first class mercantile establishments that will compare favorably with towns much larger than ours. Hotels, schools, churches, fraternal orders, and some of the public utilities, except waterworks, which are coming. Haven't reached street car stage yet but will in due time (after Dixie-Boone is put thru.)

Mr. Robert E. Woods, former postmaster of Louisville, and later director of Kentucky Good Roads Association, was a big factor in putting over road bond issue in S. E. Kentucky.

A good Commercial Club is the life of a town or city. Even a lukewarm organization beats none, but just think of what a "live" one can accomplish.

We don't feel big chested over what Mt. Vernon has done or is doing or going to do, (and believe the boosters will "live" though we simply feel justified, under the circumstances, to give a few puffs on the "big horn" for fear it might be overlooked by others less interested, and our city friends would know that "we don't."

Latch strings are a thing of the past in little old Mt. Vernon, having been discarded a short time after the birth of their Commercial Club and Boone Way Booster Band, when all gates and doors within the city were removed from their hinges and laid in the discard. Everything is wide open to the good roads people who are welcome at any and all times.

A. F. Sanford, Chairman Dixie Highway Committee Knoxville, in writing our Mr. Maret says: The excellent work of yourself and your Boone Way people made the location of East Dixie possible. We congratulate you.

Bob Brown, the hustling managing editor of Louisville Times writes our veteran Boone Way originator: "You have made a wonderful success where others have dismally failed."

Boosters, you are not Only welcome to our city Or to our whole mountain range Not forgetting Everything in sight, We bid you thrice welcome to All You see and then some more. (Continued on 3rd page)

East Kentucky-
Tennessee Dixie
Highway Ass'n.

Organized at Lexington
Meeting June 5th.

Dixie Highway representatives representing territory from Indianapolis to Chattanooga, the section the Eastern Dixie Highway route, will traverse, formed an organization at Lexington on Saturday June 5th, to known as the East Kentucky-Tennessee Dixie Highway Association. The new organization will have for its purpose the supervision, aiding and encouraging of the construction of the Eastern loop of the highway within the allotted year according to specifications acceptable to the Dixie Highway Association, the parent body. A second Association, similar to that determined Saturday last, is being assembled between Cincinnati and Indianapolis to look after the construction of the road along that way, completing the Eastern route.

W. J. Sparks, of Mt. Vernon, Ky., one of the prime movers in Kentucky good roads was chosen president; W. C. Culkin, of Cincinnati, was elected vice president of Ohio; Judge W. T. Simmons, of Williamsburg, vice pres., for Kentucky, and A. F. Sanford, of Knoxville, vice pres., for Tennessee. The president was empowered to appoint the secretary and treasurer. He has named James Maret, the Boone Way man, of Mt. Vernon, to the secretary's place, and Fred L. Durham, of the same town as treasurer.

Outstanding among the features of the day's busy activities were the attendance of the officials of the Southern Railway and Queen & Crescent Route; addresses by numerous good road advocates including the secretary of the Dixie Highway Association, W. S. Gilbreath, of Chattanooga, State Highway Commissioner Robert C. Terrell, and others, and the adoption of a resolution declaring it the sense of the meeting that the association support as far as possible, men for national office who will urge passage "of such measures as will secure the building" of good roads everywhere. The resolution was introduced by J. Frank White, of Cumberland Gap, the live wire on the route.

Secretary Gilbreath declared that the specifications would not be uniform, since that would work a hardship on various parts of the country, except in matter of excellence. Portions of the road, he said, would be composed of asphalt, concrete and macadam. Any roadway accepted by the State government of Kentucky, and built under State supervision, will be acceptable to the Commissioners. State Commissioner, Terrell made it plain, in his address, that his office would not be too stringent upon the mountains in way of specifications and said a properly constructed road, thru the mountain territory, with a spread of nine feet of macadam road would be accepted by the State, provided of course other portions of construction specifications are adhered to. These statements from headquarters gives quite a relief to the citizens of the mountains of Southeastern Kentucky and East Tennessee who had feared

**Mt. Vernon Letter
to Lancaster Record**

A short history of Boone Way
and its originator may be of inter-
est to the many Garrard friends of
the latter.

James Maret was born near
Wallace's Mill, two miles north of
Lowell, Garrard county, in 1855, went
to Texas in 1872 with his father's family,
learned telegraphy.

Returned to Hyattsville and re-
mained something over a year in
employment of Will A. Burnside.

Was appointed railroad agent at
Mt. Vernon August 1872, which
position he filled for eighteen
years.

Started first newspaper in
Rockcastle, The Signal, in 1887.

Sold newspaper, but later, 1886,
repurchased and ran it three years
and sold to present owner, E. S.
Albright.

Entered telephone
business with A. H. Bastin, of Lan-
caster, and ran lines from Stanford
and Crab Orchard to Mt. Vernon

in 1898, remained in telephone
work until autumn of 1914, entire
since which time he has devoted

his time to Boone Way work.
Back in 1912 the idea of a
National Highway to be constructed
from Cumberland Gap to Crab
Orchard, occurred to Mr. Maret,
who advised with friends on the
subject. A Commercial Club was
formed in Mt. Vernon, January 2,
1913; and on 9th of same month an
auxiliary to the club was organ-
ized and named the Boone Way
Booster Band. They immediately
set to work on plans for National
aid. Many encouraging letters
from Congressmen, Senators, Gov-
ernors, Commercial Clubs of the
larger cities were received, and
hills were introduced in Congress
asking an appropriation for engi-
neers to make a survey of the route.

At the request of Senator Brad-
ley, the Agriculture Department
sent James T. Voshell Senior
Highway Engineer, over the route
in June 1913, whose report of es-
timate placed the cost of the 95 miles
at \$1,024,000.00. Matters drifted
along. Senators Bradley and
James had done all that could be
done toward securing Federal Aid.

It was discovered that we were
just a few years ahead of the
times. The time for government
aid to highways had not arrived
but the sentiment of our country

is growing strongly in that direc-
tion and after our thru highways
are established it is confidently
claimed that the National Govern-
ment will take hold and maintain
something of such vast benefit to
his people and his country.

After the Bosworth State Aid
bill passed the legislature our
Boone Way friends resumed oper-
ations with renewed vigor. Let-
ters, road literature and newspaper
articles almost made the mail car-
riers life a misery, so voluminous
were his loads made up of Boone
Way stuff. A speaking campaign
was arranged for in November

1914 with Robt. E. Woods, of
Louisville, and James Maret (Mr.
Maret did no public speaking but
boasted, who toured several times
all the counties to the south east

and fired the hearts of the Mountaineers
with enthusiasm for good roads
generally and Boone Way

in particular. The result is known.
Road issues have been voted as
follows: Bell county \$250,000; Whitley 250,000;

Knox \$200,000; Laurel \$100,000, Rockcastle \$100,
000, and Lincoln Fiscal Court has
appropriated sufficient funds to
build four miles of the road
from Crab Orchard to the Rock-
castle line.

The Mt. Vernon Post Office is
being treated to a new coat of
paint.

Children that are affected by
worms are pale and sickly and
liable to contract some fatal dis-
ease. White's Cream Vermi-
ngue expels worms promptly and puts
the child on the road to health.

Price 25c per bottle. Sold by
John Robins, Brodhead, Ky.

The greatest wheat crop ever
known is indicated by the govern-
ment report recently issued. A

The strawberry, cream and cake festival recently held by the ladies of the church, at the depot park, was quite a success and the proceeds have been applied to the new Fwood. Our thanks are due to Miss McCord and the people of the Langdon Memorial School for the assistance, given and also to the ladies and friends of the church, for their service and attendance. The music supplied by the Victor-Victrola was quite a feature, and enjoyed by everyone,

CONSTIPATION CURED OVERNIGHT

A small dose of Po-Do-Lax
tonight and you enjoy a full, free,
easy bowel movement in the morning.
No griping, for Po-Do-Lax
is Popodophyllin (May Apple) with
the griping. Po-Do-Lax corrects
the cause of Constipation by
troubling the Liver, increasing the
flow of bile. Bile is Nature's an-
tiseptic in the bowels. With
a proper amount of bile, digestion
in bowels is perfect. No gas, no
fermentation, no Constipation.
Don't be sick, nervous, irritable.
Get a bottle of Po-Do-Lax from
your Druggist now and cure your
Constipation overnight.

Case of Leprosy Reported

**Tennessee Health Authorities Find Victim
Of Disease**

Chattanooga, Tenn., June 5.—

The first case of leprosy ever dis-
covered in Tennessee has been

found in Dickson County by the
State Board of Health, according to
advices from Nashville. Curley

Nickell, aged 17, is the reported
victim of the disease. Nickell was

sent to the Louisiana leper colony.

DEAFNESS CANNOT BE CURED

by local applications, as they can-
not reach the diseased portion of
the ear. There is only one way to
cure deafness and that is by
constitutional remedies. Deafness
is caused by an inflamed condi-
tion of the mucous lining of the
Eustachian Tube. When this tube
is inflamed you have a rumbling
sound or imperfect hearing, and when it is
entirely closed, Deafness is the result, and unless
the inflammation can be taken out and this tube restored to normal
condition, hearing will be destroyed
forever; dice cases out ten are
caused by Catarrh, which is not
ing but an inflamed condition of the
mucous surfaces.

We will give One Hundred Dol-
lars for any case of Deafness
(caused by catarrh) that cannot
be cured by Hall's Catarrh Cure.

Send for circulars, free.
